

Important information for investors

This brochure contains important information for investors in this fund. It is not advertising material. This information, which is required by law, explains the nature of the fund and the risks of investing in it. We recommend that you read this brochure, so that you can make an informed investment decision.

Kathrein Sustainable EM Local Currency Bond

ISIN: AT0000A2HU91 (Accumulating units)

Class of units: Institutional Tranche

Min. Invest.: EUR 10.000

Fund currency: EUR

Fund manager: Kathrein Capital Management GmbH

This fund is managed by MASTERINVEST Kapitalanlage GmbH.

Objectives and investment policy

The fund pursues an active management approach in relation to a benchmark (ICE BofA Merrill Lynch Euro Currency 1-Month Deposit Offered Rate Constant Maturity Index) in conjunction with a performance fee (using the high watermark method). The objective of the investment policy is to achieve capital growth over the long term while accepting medium to high fluctuations in value.

The fund is a bond fund that invests at least 51 % of the fund's assets in debt securities of companies domiciled or operating in Emerging Markets, in the form of directly acquired individual titles, hence neither directly nor indirectly through investment funds or derivatives. Emerging and frontier market bonds in the respective local currency or dual-currency bonds in a hard currency are used for the investing in bonds. The debt securities are not subject to any restriction in terms of their rating classification. Here, mainly social and ecological exclusion and quality criteria are applied. Likewise, up to 10 % of the fund's assets may be used to buy shares in bond funds and money market funds in any industry and region.

The Fund does not acquire equities, neither in the form of directly acquired individual securities, nor indirectly or directly via investment funds or derivatives.

The Fund may invest more than 35% of the fund's assets in securities and/or money market instruments issued by member states, local authorities or public international bodies. For a detailed list of issuers, please refer to the Prospectus, Section I, item 1.12. Moreover, up to 49 % of the fund's assets may be invested in money market instruments and bonds issued by governments or other agencies, as well as sight deposits and callable deposits.

Derivatives may be acquired for investment and hedging purposes to generate an additional return; however, the market risk potential is capped at 200 %.

Dividends are not paid out for accumulating units. Only the capital gains tax will be paid from 15.11. each year.

Units can be surrendered to the fund at the depository bank at the applicable redemption price on Austrian banking days (except Good Friday and New Year's Eve). In exceptional circumstances, the management company may if necessary suspend redemption.

Recommendation: This fund may not be suitable for investors within to withdraw their money from the fund in 7 years.

Risk vs Return

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- Risk vs return is based on past performance and is not a reliable indicator of future performance.
- Category 4 classification is based on historic fluctuations in the fund price and the markets.
- Category 1 classification does not mean that the investment is risk-free.
- Risk classifications are not a target or guarantee and may change over time.

The risk classification of the fund may not take account of all risks. The prospectus contains a detailed description of all potential risks. The following risks do not impact directly on this classification, but may nonetheless be relevant to the fund:

- **Counterparty risks:**
The fund may conduct transactions with various counterparties. If a counterparty goes bankrupt, they may be unable to satisfy the fund's outstanding claims or to satisfy them in full.
- **Credit risks:**
The fund may invest some of its assets in bonds or money market instruments or sight deposits. If the issuer or the counterparty to the position goes bankrupt, the position may lose all or part of its value.
- **Liquidity risks:**
There is a risk that a position cannot be sold in time at a reasonable price. This risk may also lead to a suspension of unit certificate redemptions.
- **Operational risks:**
The fund may be the victim of fraud or other criminal activity. It may sustain losses as a result of misunderstanding or error by management company staff or external third parties or suffer the impact of extreme events (i.e. a natural catastrophe).
- **Depository risks:**
Assets held by a depository may be at risk of loss due to bankruptcy, negligence or misconduct on the part of the depository or a sub-depository.
- **Derivative risks:**
The fund only uses derivatives for the purpose stated above under "investment policy". Although they may offer the chance of a greater return, there is also a greater risk of loss. Using derivatives for hedging purposes may also reduce the chances of making a return on the fund.

Costs

The fees charged are used for the purpose of managing the fund. They include fund unit sales and marketing costs. The costs charged will reduce any increase in value.

One-off pre- and post-investment costs:

Front load fee:	3,00 %
Redemption fee:	0,00 %

These are the maximum rates that will be deducted from the amount which you invest either prior to your investment or prior to payment. Your broker can advise you of the current fees.

Costs deducted from the fund during the year:

Running Costs:	0,56 %
-----------------------	--------

The costs shown at this point are a cost estimate, as the fund was not launched until 17.08.2020. The "running costs" include the management fee and all other fees. Transaction costs are only included in "Running Costs" if charged by a company associated with the fund (e.g. depository bank). The "running costs" can vary from year to year.

Costs, which the fund has to bear under certain circumstances:

Costs linked to the fund's performance:

Keine ex post Daten vorhanden, da der Fonds erst am 17.08.2020 gegründet wurde.
(Näheres siehe Fondsbestimmungen bzw. Prospekt)

Past performance

No data available as the fund was established on 17.08.2020.
